

TRY BEFORE YOU BUY

DISCOVER THE BENEFITS OF FINANCING YOUR ENERGY SOLUTIONS.

Financing your lift truck batteries and power systems offers many of the same benefits as financing the trucks themselves.

- + Leasing available for all battery technologies: Lead Acid, Lithium-Ion and Thin Plate Pure Lead (TPPL)
- + Lower up-front capital expenditures
- + Flexible terms so you can try before you buy
- + Access to the latest technologies
- + Easy, convenient recycling or disposal
- + Quick, affordable adjustment to changing operational demands
- + Ongoing support and reduced operational risks
- + Greater efficiency and uptime

Raymond can help you procure, maintain, and manage the energy solutions you need—independent of the truck chassis—helping you optimize performance, uptime, and savings to meet your goals.

Finance with Raymond and let us help you minimize your initial investment while delivering the highest residual values on the market.

POWER SYSTEMS & SOLUTIONS AVAILABLE

Raymond's intelligent battery and power solutions integrate into your existing telematics for easier, more effective energy monitoring and management.

- + Batteries
 - Lead Acid (utilizing iBATTERY™)
 - Lithium-Ion (utilizing PSI)
 - Thin Plate Pure Lead (TPPL)
 - Alternative Fuel Sources
- + Chargers
- + Energy Storage Solutions
- + Energy Asset Manager

RAYMOND ALSO OFFERS THE FLEXIBILITY AND PREDICTABILITY OF:

- + Fixed energy pricing
- + Ongoing energy systems maintenance contracts

If you're looking for a partner with the tools and experience to help you run better and manage smarter, contact us today at 1-800-235-7200 or visit us at raymondcorp.com.

RAYMOND

FINANCE WITH SOMEONE WHO UNDERSTANDS YOUR BUSINESS

As a captive financing company—independent of any third-party banks or other lenders—Raymond can offer flexible, customizable terms, highly competitive rates, and reliable, responsive service.

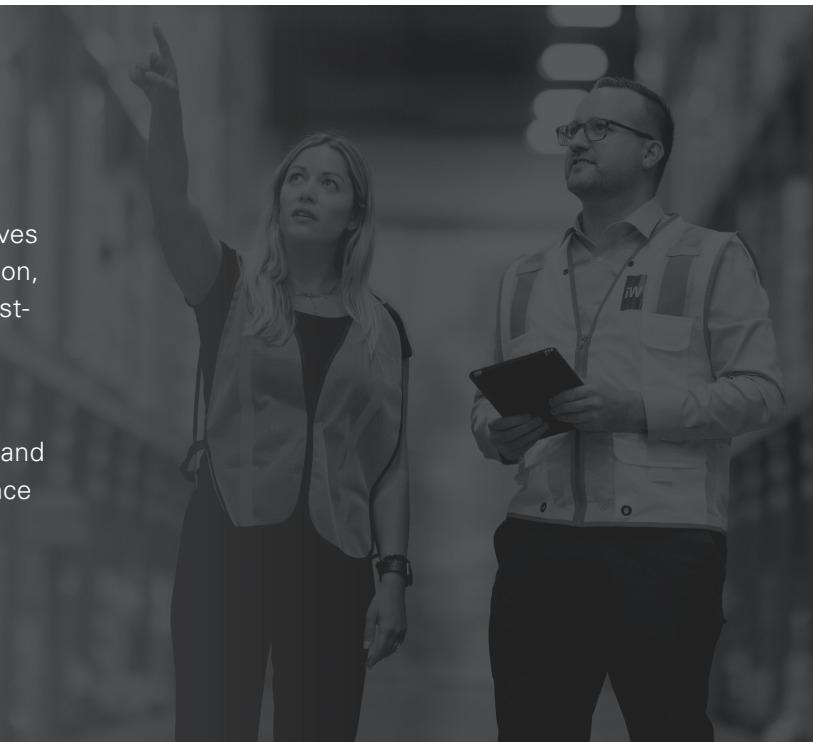

No one knows your equipment better than we do, and no one's more qualified to deliver an energy solution financing program tailored to your trucks, needs, and budget.

YOUR ENERGY PARTNER—START TO FINISH

Beyond our energy solutions financing options, Raymond gives you a total energy partner capable of assessing your operation, analyzing your usage, and recommending energy-saving, cost-saving solutions.

From in-depth power studies to battery charger simulations and data analysis, we offer the tools, technologies, and experience to help you manage energy more effectively and run your business more efficiently.

To learn more about our energy solutions and financing programs and how they could help empower your business, please contact your local Raymond Solutions & Support Center.
