

MINI MAST 4000 SERIES STAND-UP COUNTERBALANCED

EXCELLENT VISIBILITY AND PRODUCTIVITY IN TRAILER & TRANSPORT APPLICATIONS

Ideal for high traffic areas and applications with lower lift height requirements, the Mini Mast option on Raymond 4000 Series Stand-Up Counterbalanced Trucks offers a wide-open view for fast and confident travel.

Often called a “truckers mast” because of its suitability for trailer access and cross-docking, the Mini Mast configuration offers excellent visibility for more precise pallet engagement.

Excellent operator visibility with an overall collapsed height of 55”

Ergonomic control handle offers simultaneous control of truck functions and more comfortable operation

Industry-leading acceleration and travel speeds offer unparalleled productivity

Angled front cover allows clear view of the forks and load for easier operation
