

SIT-DOWN AND EXPLORE WHAT'S NEW

INTRODUCING THE LATEST ENHANCEMENTS TO RAYMOND'S 4460 SIT-DOWN COUNTERBALANCED TRUCKS

Already known for exceptional maneuverability and operator visibility, Raymond's 4460 3-Wheel Sit-Down Counterbalanced Trucks now come with an array of exciting new enhancements to help you work even more efficiently and productively.

SLOPE-SENSING AUTO-POWER MODE SELECTOR

for optimum travel
speed on ramps

LITHIUM-ION BATTERY

delivers faster charging,
extended run times, and
longer life with zero traditional
maintenance requirements.

AUTO PARKING BRAKE

automatically sets
parking brake if not
engaged by operator.

FULL COLOR AND MULTI-FUNCTION OPERATOR DISPLAY

provides at-a-glance truck and
battery status information for
enhanced operator control and
confidence.

PREMIUM COMFORT SEAT (VINYL OR CLOTH)

improves seat suspension capacity, has an
adjustable range, and provides the operator with
a smoother ride with less vibration

For more information or a demonstration of how 4460 Forklifts could enhance your dock to stock applications, please contact your local Raymond Solutions & Support Center.
