

# FREEZER

## HAND PALLET TRUCK

The Raymond LCF44 Freezer Special hand pallet truck is protected with galvanization and other exterior and component treatments to resist corrosion. The LCF44 galvanized hand pallet truck jack is ideal for freezer and refrigerated application with resistance to corrosion from condensation common in cold storage environments.

### STANDARD SPECIFICATIONS:

- Capacity: 4,400 lbs
- Fork OAW: 27"
- Fork width: 6.3 "
- Fork length: 48"
- Fork height (lowered): 3"

# FREEZER HAND PALLET TRUCK

## DURABILITY

Harsh environments won't stop the Freezer (FR) from getting work done. It's resistant to corrosion caused by condensation through various material and surface treatments. The hot dip galvanized fork frame provides resistance to abrasion and premature surface treatment wear.

## MAINTAINABILITY

With solid nylon wheels and rollers to prevent premature failure associated with bonded wheels in cold temperatures, the Freezer (FR) keeps you moving. The galvanized freezer unit is rated to -20°F (-30°C).

Electro Galvanized Pump Handle

White nylon steer wheels and load rollers complete with shielded ball bearings.

Pump body, torsion bars, lever arms, pump pressure plate finished with Galvanizing Spray.
