

# RAYMOND® 8810 SIDE ENTRY PALLET TRUCK

DESIGNED FOR GREATER VERSATILITY  
—END TO END, SIDE TO SIDE.

With its tight turning radius, ergonomic backrest, and easy access from either side, Raymond's 8810 Side Entry Pallet Truck brings superior maneuverability for improved productivity to a wide range of material handling and low level order picking applications.

# 90%

Reduction in  
required steering effort  
with PowerSteer.

Entry from either side allows operators to pick more quickly, conveniently, and efficiently.

Tight turning radius allows more precise, secure, and efficient load handling.

PowerSteer enhances operator comfort and control for greater productivity.

Forks-first or tractor-first operation provides exceptional versatility and maneuverability.

# RAYMOND

# WORK MORE EASILY. RIDE MORE COMFORTABLY.

Beyond its exceptional maneuverability, versatility, and accessibility, Raymond's 8810 Side Entry Pallet Truck also offers an array of ergonomically designed features to enhance operator comfort, control, and confidence.

**Contoured, height-adjustable back pad** adjusts to operators of all sizes.

**Grab handles** molded into the back pad enhance truck operation and improves operator confidence.

**Height-adjustable control handle** offers more customizable, comfortable operation.

**Operator-sensing floor mat** automatically brings the truck to a stop in order picking mode whenever an operator leaves the compartment.

**Ergonomic backrest** offers greater operator confidence.

## iWAREHOUSE® INTELLIGENT WAREHOUSE SOLUTIONS
