

RAYMOND® 8630 TOW TRACTOR

HIGHER LOAD CAPACITY AND GRADE
CAPABILITY. LOWER COST PER MOVE.

Faced with increasing throughput requirements and ongoing space constraints, today's operations need compact, capable tow tractors that can pull heavy loads in tight areas.

Ideal for high-capacity, high-volume transport and batch picking applications, the Raymond 8630 Tow Tractor offers a 15,000 lb. capacity to handle more carts and lower your cost per move.

Durable and reliable, the Tow Tractor measures just 33.25" wide for greater accessibility and performance throughout your facility, easily navigating confined spaces, congested areas, ramps, and doorways.

15,000 lb. towing capacity on flat surfaces, lets you pull more carts and transport more product for a lower cost per move.

11% grade capability up to 7,500 lbs., allows exceptional performance and towing capacity on ramps.

Cushioned backrest, floor mat, and knee pad enhance operator comfort for greater productivity.

Dual thumb wheels control forward and reverse direction and travel speed for easy, ergonomic handling.

SPECIFICATIONS

Capacity:	15,000 lbs. (flat surface), 7,500 lbs. (11% grade)
Overall Length	75.7"
Overall Width	33.25"
Turning Radius	69.8"
Travel Speed	6 mph loaded and unloaded

RAYMOND

LOW-MAINTENANCE, HIGH-PERFORMANCE LITHIUM-ION BATTERIES

Raymond 8630 Tow Tractors are available with an optional, seamlessly integrated lithium-ion battery that delivers:

- + Greater efficiency
- + Longer run times
- + Lower total cost of ownership
- + Faster charging
- + Superior capacity retention

OPTIMIZE YOUR OPERATION ON THE ROAD TO AUTOMATION

Part of a perfectly tailored, seamlessly integrated warehouse solution, the Raymond 8630 Tow Tractor is a smart truck capable of giving you the data-driven insights you need to enhance the flow of goods through your facility.

Whether you're looking to improve your current workflow, update your technologies, or transition to automation, let our team of experts assess your needs, identify opportunities, and recommend solutions.

Talk to us about putting the industry's most comprehensive telematics and intralogistics solutions to work for your business.

iWAREHOUSE® INTELLIGENT WAREHOUSE SOLUTIONS

Optimize your operation by leveraging valuable data from your fleet, assets and workforce using iWAREHOUSE's comprehensive and scalable suite of telematics solutions. Save time, cut costs, and run more efficiently with an array of customizable insights, including:

- + recommendations on right-sizing your fleet
- + management solutions and suggestions to optimize labor efficiency
- + asset maintenance and management
- + track/control lift truck movements

RAYMOND COURIER AUTOMATED GUIDED VEHICLES

(Next Generation Coming Soon)

As labor availability—and affordability—continues to be a challenge, Raymond offers automated tow tractors to enhance efficiency and productivity in a wide array of applications.

Raymond Courier 3230 Automated Tow Tractor

Ideal for repetitive, horizontal transport: pulling carts or trailers with heavy loads on flat ground or ramps in batch picking, parts-to-line and end-of-line (automated conveyor or mother-daughter cart) applications.

For more information or an on-site demonstration of how the 8630 Tow Tractor could enhance your batch picking, cart towing, or horizontal transport applications, please contact your local Raymond Solutions & Support Center.
